

Dear colleagues,

On behalf of the National Institute for Laser, Plasma and Radiation Physics (INFLPR), we are pleased to invite you to attend **The International Conference on Laser, Plasma and Radiation - Science and Technology (ICLPR-ST)**, which will be held at the Palace of Parliament, Bucharest, Romania between June 7-10, 2022.

ICPLR-ST is organized by INFLPR with Magurele Science Park participation. Our aim is to bring together researchers from the fields of lasers, plasma, and radiation from Romania and abroad providing a unique environment for sharing and promoting the latest scientific and technological developments.

ICLPR-ST is naturally following a significant number of international conferences organized in the last 50 years by Institute of Physics and Technology of Radiating Devices, which later became INFLPR. The history started with TQE series, continued with ROMOPTO, CPPA series, OSA and SPIE student chapters conferences, INDLAS, also itinerary conferences such as ICPIG-1969, EMLA -1998, ALT-2001, ESCAMPIG-2004, ALT-2006, ICPEPA-2010, LIC-2017, and several COST Conferences in 2009 and 2012.

ICLPR-ST will be organized in a hybrid format. There are scheduled lectures of distinguished invited speakers, oral and poster presentations regarding the latest advancements in the fields of research, an exhibitor's workshop, and as well as social activities.

The International Conference on Laser, Plasma, and Radiation - Science and Technology (ICPLR-ST) includes a broad variety of topics:

- Fundamentals, diagnostics and modelling in laser, plasma and radiation physics
- Advances in optics, laser and photonics
- Interaction of radiation with matter under extreme conditions
- New trends in thin films and nanomaterials synthesis and processing
- Modern applications in environment, life sciences and energy
- Innovative technologies for sustainable future
